

AHCSS00074 Agricultural Chemical Skill Set Level III

ECOLOGICAL RESTORATION INDUSTRY

The Hub for Learning (RTO No: 45630) is the awarding RTO for this qualification

Course Description

The Agricultural Chemical Skill Set (previously known as the Farm Chemical Users Course) provides the knowledge and skills required to safely select, prepare, apply, transport and store chemicals. Upon successful completion of this course the ACUP (Agricultural Users Permit) can be applied for through AgVic.

Ecoskills has fully contextualised this course to the ecological restoration industry. The same outcomes are achieved with content that is focused on the techniques, equipment, chemicals and situations that ecological practitioners deal with including working in public places.

Units Of Competency

AHCCHM304 Transport and store chemicals
 AHCCHM307 Prepare and apply chemicals to control pests, weeds and diseases
